

SUPPLIER DEVELOPMENT CONSULTING

SRM consulting provides supplier & enterprise development consultancy services in following areas:

- Product development & diversification
- Organization & strategy
- Human resource
- Quality management standards
- Health and safety standards

SUPPLIER DEVELOPMENT PROGRAM (SDP)

SDP's objectives are build capabilities and capacity of diverse suppliers to enhance their competitiveness and support growth. The primary focus of this training and developmental program is to improve effectiveness of the diverse suppliers to meet the needs of buyer and to create conditions for them to competitively seek contracts and business opportunities in the local market.

ON-SITE COMPLIANCE AUDITS

Audit is intended to provide a regulated business with a view of its current level of compliance against its regulatory requirements and/or stakeholder demands. Our professionals assist in addressing them by updating existing policies and procedures, not only identify the compliance gaps that may exist in a business. The audit will look at the following areas:

- Review policies and procedures
- Human resource management
- Quality management
- Health and safety
- Laws and regulations needs and requirements

SUPPLIER DEVELOPMENT TRAINING

SRM consulting provides wide range of supplier & enterprise developmental training based on their needs. Some of our training programs we develop and offer:

- Supply chain management
- Understanding your costumers needs & requirements
- Product development & diversification
- Quality management system
- Health and safety management
- Corporate governance & social responsibility

ABOUT US

SRM consulting is privately owned management consulting and training firm, formed in 2016. We focus on assisting organizations to develop and improve their procurement and supply chain capability. SRM consulting has been established by specialists, who gained professional experience in international mining companies, where higher standard requirement apply. Today, our team of specialists offer consultancy service to mining, construction, transportation companies as well as to small and medium sized companies such as clothing factories, catering service providers and supermarkets.

CORE VALUES & PRINCIPLES

Our values define how we do business and interact with our customers, partners and colleagues.

- Good relationship & partnership
- Tailor-made services
- Client satisfaction
- After-service communication
- Dynamic pricing policy
- Cost and time saving
- Rule of law
- Confidentiality
